- Malgré tout le soin apporté à la fabrication de ce nuancier et à la mise en peinture de nos radiateurs, de légères différences d'aspect peuvent être observées suivant les séries de radiateurs en fabrication, ou bien par rapport à d'autres supports de références couleurs (céramique, papier, métal...).
- Whilst every care is taken with quality control in the painting process of colour tones, small variations may occur between different production runs, and when comparing colours on different reference materials (ceramic, paper, metal...).
- Trotz äußerster Sorgfalt bei der Herstellung dieser Farbkarte als auch beim Lackiervorgang unserer Heizkörper sind leichte Farbabweichungen, je nach Fertigungsreihe und gegenüber anderen Farbtägern (Keramik, Papier, Metall, ...), möglich.
- Ondanks de grote zorg die is besteed aan de productie van deze kleurenkaart en de continue kwaliteitscontrole bij het coaten van de radiatoren, kunnen kleine kleurnuances ontstaan in de radiatoren onderling en in vergelijking tot ander referentiemateriaal (keramiek, papier, metaal ...).
